

**LET'S BUILD
TOGETHER
A TRUSTED
DIGITAL
SOCIETY**

TO MAKE THE CYBERSECURITY ECOSYSTEM SHINE.

CONCEPT

A project initiated by the French President will be an emblematic cybersecurity venue by 2021, bringing together the leading national and international actors in the field. In particular, it will make it possible to host on the same site companies (large groups, SMEs), government departments, training organizations, research actors, and associations. The Campus Cyber plans to set up actions to federate the cybersecurity community and develop synergies between these different actors. Regional variations of the Campus are scheduled in the coming years. To date, more than 60 actors from a variety of sectors have indicated their willingness to participate in the Campus. The Campus Cyber will open in October 2021.

MISSION

Promote French excellence in cybersecurity by bringing together talent and actors in a shared space around innovation projects. Facilitate multi-stakeholder projects and develop the common basis of digital security and trust.

VISION

The cyber ecosystem is our leverage
to accelerate the creation of a
trusted digital society

COLLABORATION

A MODEL BASED ON 4 PILLARS.

OPERATIONS

Sharing data to strengthen everyone's ability to control the digital risk.

- Gathering of Cyber Analysis Experts (CER) to strengthen for all, the capabilities for monitoring, detection, and response to the threat.
- Creating a common basis for "Threat Intelligence", composed of the indicators of compromise assembled by the various public and private partners.

INNOVATION

Develop synergies between public and private actors to guide technological innovation and strengthen its integration into the economic fabric.

- Joint programs which will bring together the industrial sector, start-ups, and research centers.

TRAINING

Support for the training of various groups (government employees, workers, students, professional reorientations, etc.) to increase the level of expertise in our ecosystem.

- Formal training and education programs are provided by schools or training centers.
- Sharing academic resources.

ANIMATION

A lively and open space dedicated to the programming of innovative events conducive to exchanges and the discovery of developments of the trusted digital society.

- The events team will support the completion of conferences, webinars, shows, podcasts, round tables, pitches, showroom, job dating, thematic meetings, creation of cyber standards, social networks, demonstrations, learning expeditions, international events, speed dating investors.
